

99% Isopropyl Alcohol (IPA)

- Ultra-pure, leaves no residue
- Medium drying speed
- Plastic-safe, ESD-safe
- Economical and effective

Product Information

MicroCare 99% Isopropyl Alcohol (IPA) is plastic-safe, non-corrosive and ESD-safe. This clear, colorless liquid is manufactured and packaged to meet US Federal Specification TT-I-735A and ASTM Specification D 770-11. This product contains less than 0.5% by weight water content, is better than 99.90% pure by weight and dries without leaving a residue.

Manufactured to a high degree of quality and consistency, it is ideal for use in water sensitive applications and is safe on most materials of construction including metal parts, machinery, printed circuit boards, printers and most work surfaces .

Because Isopropyl Alcohol is flammable in liquid and vapor form and is an irritant, appropriate care should always be taken for storage and handling.
