

Speed Head 7/16"

Full Head 7/16"

Full Head 1/2"

Full Head 9/16"

Designed for F Connectors, these torque wrenches provide a perfectly calibrated amount of torque to prevent damage from over-tightening or signal loss from under-tightening. The TWAF wrenches have full-size open heads while the TWAS wrenches have speed heads to skip over the corners of nuts and bolts so no repositioning is required. All Jonard torque wrenches feature:

- Ergonomic design with 15° angled heads and cushioned grips.
- Calibrated torque for consistent tightening.
- Audible clicks to let you know when the connectors are fully torqued.
- Made of High Carbon Steel with Black Oxide finish for maximum durability.
